

Wholesale Ethernet

Awarded “Asia Pacific’s Best Wholesale Ethernet Service Provider”, TM now brings you the advantages of Carrier Class Ethernet in wholesale business arrangement to provide cost-effective, robust, scalable and seamless connectivity solutions for business needs.

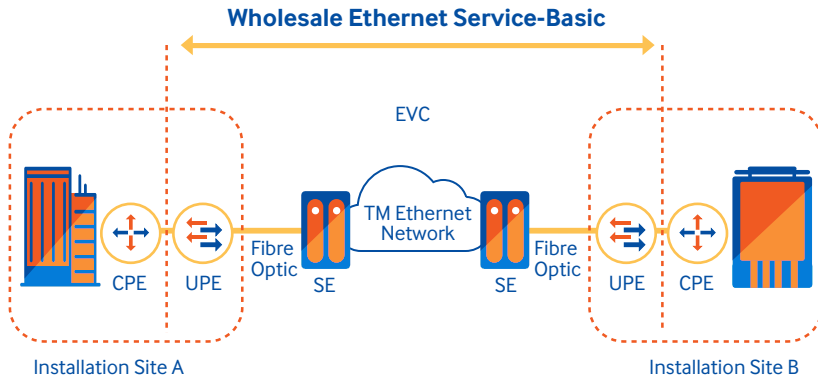

Our Services

Wholesale Ethernet

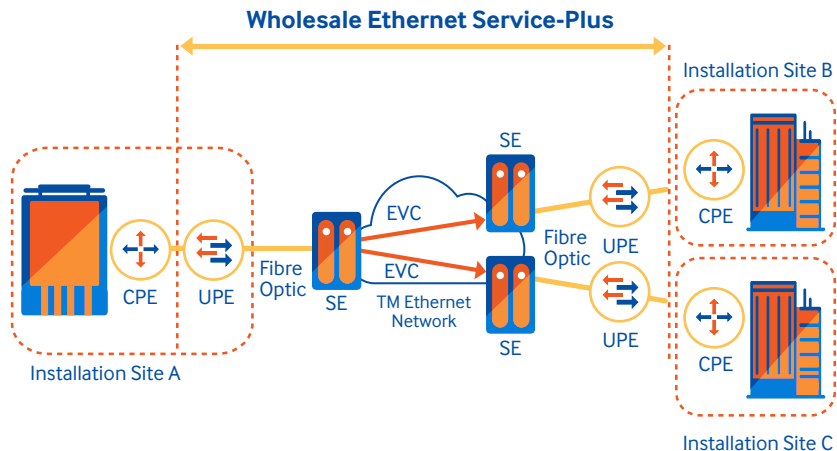

Wholesale Ethernet Basic Package

A point-to-point connectivity service using a single Ethernet Virtual Circuit (EVC) between two installation sites.

Wholesale Ethernet Plus Package

A point-to-multipoint connectivity service using multiple EVCs between multiple installation sites.

Key Benefits

Extensive and High Availability Infrastructure

Nationwide Metro Ethernet nodes delivered through **Regional** Metro Ethernet rings to meet the ever-changing needs of your business requirements.

Cost Efficiency

Borderless connectivity with distance independent pricing gives you a **cost-effective** business solution.

Scalable Bandwidth

Immediate bandwidth upgrade without service disruption, to maximise your business capability.

IPv6 Ready

Supports both IPv4 and IPv6 natively without any **configurations** or **changes** in the network.

Plug-and-Play

Just plug the Ethernet LAN cable into the port once the switch is in place to get **immediate connectivity** for configured destinations.

Supports Various Applications

Supports a **wide range** of applications such as voice, video and data.

24 / 7 Customer Service Centre

Round-the-clock support by experienced service engineers and technicians.

Solution Consultant

Consultancy services are provided to ensure the best solutions possible.

Applications

Perfect for wholesale businesses or corporations which require high bandwidth for data transmission over Wide Area Network (WAN).
